

X-TRED™ WALKWAY PAD

Complete your roof with Firestone X-Tred™ Walkway Pad

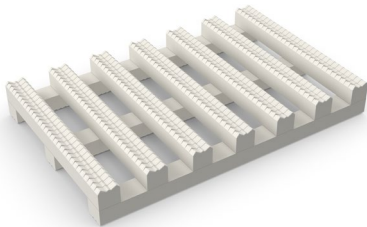

Protect high volume roof surfaces with X-Tred™ – a premium walkway pad made from 100% TPO for use on TPO, EPDM, and modified bitumen roofing systems. Its self-ballasting feature requires no attachment to the membrane system and it won't buckle or blow away.

Now available in **triple the colors**.

WHITE

High Reflectivity

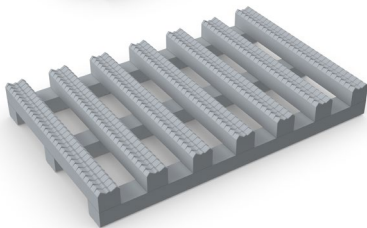

Item # W56 TPO 301X

GRAY

Path Delineation

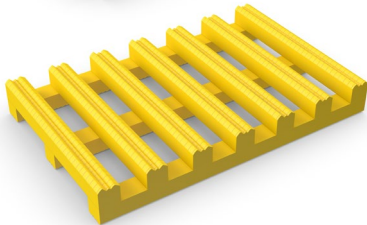

Item # W56 TPO 302X

YELLOW

Safety Enhancement

Item # W56 TPO 303X

All colors available as 30" x 30' rolls.

Color swatches presented are representations of actual colors. Actual color may vary slightly due to lighting conditions and other factors.

FEATURES & BENEFITS

LOOSE LAID

No preparation or fixing required; can be laid in almost all weather.

SLIP RESISTANT

Cross-directional top ribs with embossed surface.

WIND RESISTANCE

When loose laid, X-Tred can withstand winds up to 55 mph (89 km/h).

ALL-WEATHER

Open grid format is self-draining and eliminates ponding water.

PROVEN WEATHERABILITY

Effective in typical rooftop temperatures.

FLAMMABILITY

UL Tested to ensure fire safety.
